## WORK EXPERIENCE & COMPLETED PROJECTS

### LIST OF DIRECTORS

1. GILBERT ADUNYA -gilbert@gilfield.co.ke
2. STEVEN MAWEU -stevenmaweu@gmail.com

### Our VISION

To be the leading provider of General Services Provider in East Africa.

### Our MISSION

Committed to providing quality Services at competitive rates in timely manner while observing Governing Laws.

- Core Values
- Honesty
- Professionalism
- Integrity

### Customer care

We believe in building value adding relationship with our customers in the following ways;

- To participate in the construction of housing, building and structures of all kinds.
- To create employment
- To preserve environment
- To participate in the construction, rehabilitation, repair and maintenance of roads of all kinds.

### Contracting Ability

**Gilfield Services Ltd** is in a position to provide its customers with the level of contracting responsibility that is required by the customer. This could be in the role of the "System Supplier" facilitating the highest level of contracting responsibility. In this Role **Gilfield Services Ltd** is held responsible for the overall project from assessment of user need to final completion, providing ultimate contracting comfort for the customer. This would include being responsible and accountable for the design of the system (infrastructure) as well as the implementation thereof.

**GILFIELD SERVICES LTD** is a member of The Roads and Civil Engineering Contractors Association (RACECA) We are also a part of the Contractors that wants the ceiling on exclusive tendering reserved for local firms of Sh500 million removed. As contractors, we feel that the Public Procurement and disposal (Preference and Reservations) Regulations 2011 that set the exclusive maximum tender was enacted without consultation of the stakeholders contrary to the Constitution.

At **Gilfield Services Ltd**,

We have committed to undertake any upcoming challenges. We have broadened our services in line with the new devolved governments to offer our services to County Governments. We have established offices in Mombasa & Kisumu Counties and have short term plans to venture to other major counties in Western, Central, Rift Valley and Eastern Regions.

We have embarked and tendered for various Tenders in the Country under various Government Authorities, This includes;

- Kenya Rural Roads Authority - **KeRRA**
- Kenya National Highways Authority (**KeNHA**)
- Kenya Urban Roads Authority (**KURA**)

**Building & Civil Works**

(Registered by Ministry of Public Works)

**NATIONAL CONSTRUCTION AUTHORITY REGISTRATION**

- Registered Category NCA 5, Road Works Contractor by National Construction Authority.
- Registered Category NCA 4, Building works Contractor by National Construction Authority.
- Registered Category NCA 3, Drainage & Refrigeration by National Construction Authority.

**Project Management**

From planning, costing and coordination, through to execution and handover. Gilfield Contractors has the capability to see every project successfully executed from start to finish.

**Partitioning**

Drywall, Chip Board, Vitrex Toilet Partition System and demountable types Gilfield Contractors have the expertise required to complete each and every installation.

**Building Alterations**

Gilfield Contractors have the expertise to complete both exterior and interior building alterations for any requirements.

**Shop fitting**

Gilfield Contractors supply the services in manufacturing and installation of shop fitting projects, using the best possible quality raw materials and supplying the most appropriate fittings to the full satisfaction of its clients.

**Suspended Ceilings/Specialized Ceilings**

Suspended Ceilings are hung from the ceiling joints with a metal grid. This creates a cavity between the joints and the ceiling where pipes, wires and ductwork can be installed and worked on. Star Contractors use Gypsum boards with a standard thickness from 6mm-15mm or any type of acoustic materials. Specialized designs can also be created utilizing these materials.

**General Building Works**

Our team of dedicated and highly skilled professionals will carefully guide you through each step of the building process. We believe the key to an enjoyable and rewarding building experience is best achieved by ensuring that open and honest communication is maintained throughout all aspects of the building process. This philosophy is applied from your initial enquiry to well after the completion and handover of your building project, ensuring you total peace of mind.

Offering our clients a flexible and detailed service, we are able to manage all aspects of the building process to the highest possible standards. This includes working with local councils, initial concept and design through to approvals and construction of your project. Our team of professionals will work closely with you each step of the way, ensuring the finished project is exactly as you intended.

Committed to providing a truly unique and rewarding building experience for our clients, we adopt the latest building technologies and creative design principles to transform your ideas into reality. Our dedicated trades are of superior quality and fine workmanship and like us, pride themselves on delivering environments that are truly inspiring - Beautiful homes & Offices of the highest standards, tailored to your specific requirements.

## Work Experience

### 1. Construction of Buildings

Clearance of site and setting out infrastructure. Excavation of pillars is set to form a firm foundation. Blinding of foundation prior to placement of reinforcement and subsequent concrete casting.

### 2. Construction of schools

Gilfield Services works hands-on, managing schedule, cost and quality—all with a vigilant focus on safety. We bring a resume of proven experience in public school construction to your project/program.

### 3. Construction of Roads

We have vast experience in all types of paving work, specializing in: Highways, Local Roads, Private Drives, Subdivisions, Commercial Parking Lots and Industrial Drives

### 4. Construction of boreholes

Drilling at appropriate diameters for the quantity of water required or to client specifications, our drilling equipment is maintained to the highest standards to comply with Health and Safety legislation which helps in making the process of drilling efficient, minimizing disruption and disturbance.
